Telephonic Medical Report Obtainment

Our TPA Partners have expressed concern regarding the extra work created by gathering and reviewing individual health statements required in order to appropriately access stop-loss risk. Typically the task of obtaining an Attending Physician Statement falls back on the TPA or agent and the amount of time and expense can be significant when working on several accounts.

In response, Bardon has contracted with a third party to obtain Telephonic Medical Reports upon submission of a sold case. This provides a significant advantage to our TPA Partners in terms of time saved and finalization of pricing. Typically, we are able to complete medical review with just a signed Release of Medical Information form.
